

INFORMATION FOR THE CONTRIBUTORS

A manuscript prepared following the “Uniform Requirements for manuscripts submitted to biomedical Journals” is acceptable to this journal for publishing. Authors are advised to visit the Web site www.icmje.org for this purpose.

Editorial scope:

The Bhutan Health Journal is intended to promote prompt publication of concise, scientific article based on the study in all fields of medical and health sciences.

- Submitted manuscripts should not be previous re-published or being considered for publication elsewhere.
- All submitted articles will undergo double blind peer review as per recommendations by subject specific experts selected by editors.
- Reviewed manuscripts will be sent to the corresponding author for appropriate response if it is indicated.
- Acceptance is based on significance, originality, clarity and fulfillment of the criteria of the publication policy of this journal.
- The Editor-in-Chief will take all final decisions regarding acceptance.
- Selection of the reviewed and accepted manuscripts intended for publication in a particular issue will be decided by Editorial Board.
- Rejected manuscript will be returned if accompanied by stamped or self- addressed envelope.
- Upon acceptance for publication the copy right of the paper automatically transfers to the BHJ and will not be published elsewhere either in part or whole without written permission of the copyright holder.
- Review article should be written by a subject expert.

Ethical aspects:

Manuscripts based on the study should have been conducted according to the ethical standards laid down in the 1964 Declaration of Helsinki revised 2000.

Manuscript must contain a statement in the method section that ail human subjects involved studies have been approved by appropriate ethical committee after careful examination of the ethical aspects.

Permission of the patients or their families to reproduce photographs of the patients where identity is not disguised

- Author should obtain written permission to reproduce any table, illustration from any other source.

Manuscript submission:

The authors are requested to strictly follow the guide lines below for submission of manuscript to Bhutan Health Journal for publication. The following documents with manuscripts are to be submitted for publication.

- A covering letter addressed to the Editor-in-Chief of the journal (Sample given at the end).
- A Title page (Sample given at the end).
- Abstract and key words in the first page followed by the text, prepared in the format of IMRAD.
- Authors must submit 2 hard copies of all documents and one copy in electronic form preferably written in a CD with adequate labeling.
- In special case, submission through E-mail with file attachment of all documents is welcome.

Covering letter:

- All authors must sign after seeing the manuscript with the statement that they are the only authors.
- The corresponding author should mention the contribution of each author to the work.
- It should contain a declaration that this manuscript has not been submitted elsewhere or not under consideration in any journal.
- It should clearly indicate the publication type (Original/ Review/Case report/letter etc.)
- Should also mention the expected benefit of the medical science from publishing of this article.

Authors are requested to submit new and revised manuscript and correspondence to:

Chief Editor
Bhutan Health Journal
Khesar Gyalpo University of Medical Sciences of Bhutan
Thimphu: Bhutan
Tele: +975-02- 328999/328990/328997
Email: editor@bhj.com.bt

Manuscript

Organization: *Typing*

- Double spaced throughout with Justified and 2.5 cm margins
- Title- font size 16, Headings - font size 14, sub-heading- font size 12 (all in BOLD).
- Text -Font type is times new Roman with size 12.
- Manuscript should have uniform style, correct journal format, carefully proofread for grammar, spelling and punctuation

Manuscript format

In general, original article should be divided into following sections: Title page, Abstract, Text, Acknowledgement, References, Tables with titles and foot notes, alternatively graph with title and Illustrations with legends. Each of the sections is to start on a separate page. Pages should be numbered consecutively beginning from the abstract.

Title page:

- Title of the article.
- Names of all authors with institutional affiliations
- Name of the department and institute where the study was undertaken
- Name of the corresponding author with contact address, telephone number, Email address
- Disclosure of conflict of interest if any
- Disclosure of sources of funding or sponsor A short running head
- Number of tables given
- Number of figures given
- Word count of abstract

Abstract:

- Title of the article
- Structured with headings (Background, Objectives, Methods with statistical analysis, Result & Conclusion).
- Authors name should not be given
- Preferably within about 250 words
- Avoid abbreviations in the title and abstract except standard abbreviation
- A non-structured abstract is suggested for review article and case report.

Key words:

- 3-5 words arranged alphabetically, separated by a semi-colon and ending with full stop.

Text:

Text should be arranged into following sections: Introduction, Methods, Results, Discussion, Conclusions, Acknowledgement, & References (all in Uppercase and Bold)

Introduction:

- Statement of the problem with a short discussion of its importance and significance
- Review of the literature related to the problem with pertinent reference
- Objectives/ hypothesis/ benefits expected stated in 1-2 paragraph

Methods:

- Study type, place and time
- Description of study variables
- Description of study subjects and grouping
- Selection criteria
- Approval of the study involving human subjects by ethical review committee and description of the ethical aspects in such study
- Description of procedure, methods, apparatus, drugs or chemicals as applicable
- Description of statistical procedure with enough detail to enable a knowledgeable reader with access to the original data to verify the reported results

Results:

- Present result in logical sequence in text, table and illustration with most important finding first
- Describe without comment
- Restrict number of table and figure needed to support assessment of paper (5-7)
- Do not duplicate data in table and figure

Table:

- Simple self-explanatory with brief title, not duplicate in text
- Each table should be numbered in Romans and printed in separate page
- Do not use internal horizontal and vertical rules
Uses of many tables are not encouraged

Illustration:

- All illustrations must be numbered consecutively in Arabic numerals as they appear in the text
- Submit print photograph of each illustration along with its electronic file
- Figure number, title of manuscript, name of the corresponding author and arrow indicating top should be written on a sticky label affixed on the back of each

- Scanned picture, graph, chart with title and figures number should be printed on separate page and original data presentation file should be inserted in the CD along with text

Legend:

- Must be typed in a separate sheet of paper
- Photomicrograph should indicate the magnification, internal scale and the method of staining
- All drugs should be mentioned in their generic form. The commercial name may be used in parenthesis

Acknowledgement:

- Individuals, institution, sponsor, organization or bodies can be acknowledged in the article for their contribution or financial or any form of assistance to the work

References:

- For reference, use author number style (Vancouver) which is based on an ANSI standard adapted by the National Library of Medicine(NLM)
- References should be numbered consecutively in the order in which they are first mentioned in the text
- Identify references in the text, tables and legends by Arabic numerals in superscript
- All citations to electronic references should be presented in numbered references following the text
- The titles of the journals should be abbreviated according to the style used in Index Medicus
- Write names of 6 authors followed by et al. if author's number is more than six.
- The reference list is not usually checked by the editorial staff or reviewer. It is the total responsibility of author to provide accurate information.
